Insured has requirements for equipment he's going to purchase. See below what they require. Let me know if this is something you'd write and what the premium would be: "No exclusions or limitations for flood, length of boom, weight of load, boom failure/ overload, operator error or property "below grade", exclusions for "Electrical", "Wear and Tear" and "Mechanical Breakdown" must have coverage for "Resulting Damage" if caused by an otherwise covered cause of loss."

Chase Becker 03/10/20 10:25 AM (Sent to Underwriter)

Insured has requirements for equipment he's going to purchase.
